DETAILED ACTION

1. This office action is in response to Amendment filed on July 28, 2006. Claim 9 has been cancelled. New claims 21-30 have been added. Claims 1, 10, 11, 16, and 21-30 are currently pending and are under examination.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Howard M. Frankfort on September 15, 2006.

Examiners' amendment to the claims:

1. (Currently Amended) A mutant trichosanthin (MTCS) protein, comprising the amino acid sequence as set forth in SEQ ID NO: 8, comprising a ~~with the~~ modification of at least one amino acid residue in the region of amino acid residues 174 to 180, wherein said at least one amino acid residue modification is selected from the group consisting of:
arginine at position 174 and lysine at position 177 are independently replaced with glutamic acid, aspartic acid, or glycine;
aspartic acid at position 176 is independently replaced with lysine or glycine;
threonine at position 178 is independently replaced with glycine or alanine; and
valine at position 175, phenylalanine at position 179, and leucine at position 180 are independently deleted.

Art Unit: 1653

Conclusion

3. Claims 1, 10, 11, 16, and 21-30 are allowable.
4. The following is an examiner's statement of reasons for allowance:

The prior art does not describe a mutant trichosanthin protein comprising SEQ ID NO: 8, comprising a modification of at least one amino acid residue in the region of amino acid residues 174 to 180. He et al. (IDS document) disclose the modification of trichosanthin at position 219 with cysteine to reduce the immunogenicity. The modified trichosanthin is conjugated with polyethylene glycol to increase the plasma half-life using the modified cysteine residue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
